PROFILE

Motivated and enthusiastic Full Stack Developer with a strong foundation in Python, Django, React, HTML, CSS, and JavaScript. Passionate about building responsive web applications and continuously learning new technologies. Seeking an opportunity to grow as a software developer and contribute to real-world projects.

PROJECTS

Student Management System

- Technologies:** Python, Django, SQLite/MySQL, HTML, CSS, JavaScript, Tailwind CSS
- A web application designed to manage student records digitally.
- Allows administrators to add, update, delete, and view student information.
- Includes search and filter functionality for quick access to records.
- Features a responsive dashboard to display student data and activities.
- Built using Django ORM for efficient database management.
- GitHub: <https://github.com/Nitin0259/Student-Management-System>

Agency AI Website

- Technologies:** React.js, Tailwind CSS, Framer Motion
- A modern AI agency website designed to showcase AI services and solutions.
- Built using reusable React components with a responsive UI using Tailwind CSS.
- Implemented smooth animations, interactive sections, and modern design elements.
- Optimized for fast performance across different devices.
- GitHub: <https://github.com/Nitin0259/Agency-AI-Project>

Travel Booking Website

- Technologies:** HTML, CSS, JavaScript, Tailwind CSS
- A responsive travel booking website designed to explore destinations and tour packages.
- Developed an attractive UI with featured destinations, booking sections, and interactive elements.
- Implemented responsive layouts, navigation, and image sliders for better user experience.
- Optimized for desktop, tablet, and mobile devices.
- GitHub: <https://github.com/Nitin0259/Travel-Booking-website>
